### Disclaimer:

For best results with Exilis Ultra 360, a full course of 4-6 treatments is recommended. Results may vary based on individual skin type, age, and lifestyle. Maintaining a healthy diet and regular water intake enhances effectiveness. Not suitable for pregnant individuals or those with metal implants in the treatment area.

# LYMPHASTIM AND X-WAVE

## X-WAVE

X-Wave is an advanced cellulite treatment using acoustic wave pulses to tighten connective tissue, smooth skin, and stimulate the lymphatic system.

It effectively treats:

- Cellulite
- Uneven liposuction results
- Loose skin
- Scars

6–8 sessions recommended for best results.

Can be combined with Exilis Ultra 360.

Treatment areas:

- Upper Arms R450
- Stomach R450
- Front/Back Thighs R650
- Buttocks R650

## LYMPHASTIM R400

Experience the power of mechanized lymphatic drainage with Lymphastim – an innovative pressotherapy treatment that uses gentle, rhythmic compression to stimulate your lymphatic system. This boosts circulation, speeds up detoxification, and supports natural weight loss. Feel revitalized as it tones your circulatory system, helping your body eliminate toxins more efficiently for a healthier, lighter you.

# WOMANHOOD

## EMSELLA

R800 per session

A revolutionary, non-invasive treatment for urinary incontinence. The Emsella Chair uses powerful magnetic energy to stimulate supramaximal pelvic floor muscle contractions –equivalent to 11,000 Kegel exercises in just one session. This re-educates and strengthens your pelvic muscles, improving bladder control and enhancing quality of life.

Recommended course: 6 sessions (2 per week possible)

DERMALUX LED LIGHT THERAPY R250

Clinically proven LED light reduces redness, acne, and signs of ageing. Boosts collagen, calms, and enhances results of any facial.

# MICRO-NEEDLE

## Dermapen: Micro-needle

DERMAPEN 4

R1900

Microneedling with Dermapen is a form of collagen induction therapy, which is intended to smooth wrinkles and improve depressed acne scarring.

Dermapen 4 glides over the skin, creating millions of fine fractional channels up to 104%.

DERMAPEN WITH PRP

R2900

PRP or "Platelet Rich Plasma" is nothing but your own blood, with concentrations of platelets above baseline levels which contain at least seven growth factors. Normal blood contains 6% platelets. In PRP, there is a concoction of a variety of growth factors and cytokines. This stimulates cellular proliferation and tissue regeneration to dramatically accelerate healing.

UBER PRO

R2900

Dp UBER PRO Peel is exclusively designed to enhance microneedling procedures. Containing a specific blend of treatment actives, UBER PRO Peel increases cellular turnover whilst addressing the signs of aging, acne, and hyperpigmented conditions.

# HAIR GROWTH TREATMENTS

## Hair growth treatments

### DERMAPEN 4

R1900

Stimulate natural hair growth with micro-needling. The Dermapen creates tiny channels in the scalp, boosting blood flow and helping active ingredients reach the hair follicles for stronger, healthier, fuller-looking hair

### MESOTHERAPY TO PROMOTE HAIR GROWTH

R1 000

Stem cells and growth factors are infused into the scalp, which enables deeper penetration of the products, also stimulating blood flow and providing essential nutrients.

The hair follicle is encouraged to produce stronger, denser hair growth.
